## BOW ISLAND

### BIRTHS

BORN:-

To Mr. and Mrs. Charles Avery of Bow Island at the Medicine Hat Hospital on Monday the 20th. April, a daughter.

BORN:-

To Mr. and Mrs. C. Collins of Alderson at Medicine Hat Hospital on Wednesday the 28th. April a daughter.

BORN:-

To Mr. and Mrs. W.S. Hare of Maleb at Medicine Hat Hospital on Monday the 10th. of May, a daughter.

BORN:-

To Mr. and Mrs. Soderquist of Irvine at Medicine Hat Hospital on Tuesday the 11th. May, a son.

Mr. C. Avery was a visitor to Medicine Hat last Saturday and returned on Monday with his wife and little infant daughter.

Mr. Hare of Maleb was a visitor to Medicine Hat last week end, returning on Monday to Maleb.

Mr. McWilliam was a visitor to Medicine Hat last Saturday.

Mr. Pollit was a week end visitor to the Hat.

Mrs. J. Hutchinson was here visiting friends last Tuesday having moved from Bow Island to Grassy Lake.

Mr. P.O. McKenna was an official visitor to Grassy Lake last Tuesday.

A great number of farmers are already seeding along the line from Bow Island to Grassy Lake.

A.E. Tunstall wishes to inform the Public, that he has been appointed a Commissioner for Oaths in and for the Province of Alberta.

C.T. Dube went to Medicine Hat last Friday and returned same day, where he had been on account of attending auction to recover money for the building of Dan Pederson's large house, which he had built over a year ago.

Mr. C.T. Dube has again started in Bow Island as a Builder & Contractor and is open to give Estimates on any job.

In a shady nook, I met my Love and an Exquisite Sundae I gave her; from A.E. Browning's Main Street, Bow Island.

**Bow Island School District No. 1883**

Tenders for the position of Assessor for the above named school district will be received by the undersigned up till Friday noon May 21st, 1920.

Plans may be had from T.R. Blaine or the Secretary, Alfred Miller.

### How to win A Bride

Just whisper in her ear, "that there will be none of the Drugdery of the Wash-Tub, for the Dearest, Sweetest, little Woman in the Whole World, because You have seen the Secretary of the Medicine Hat Steam Laundry, and he has proved, that their

"Charges are Nothing" compared to the Drugdery Saved and Love Gained by sending your Washing to them"

Just tell her that and she is Yours.

No Lurking Disease Germs Left.

Mr. Hurst is Town policeman and gas manager.

Overalls are the fad with the Gentlemen to bring down the high cost of clothing, now Ladies how about Calico or Gingham Dresses?

Mrs. L.M. Cullen has gone to Lethbridge and Macleod visiting relatives.

Mr. D. Paterson returned from Saskatchewan Wednesday morning.

Mrs. E. Bowden and daughter from Taber were visiting Mrs. Archie Hoaglin last week.

Mrs. A. Cohey is visiting in Lethbridge.

Mr. R.S. Beattie was a business visitor to Lethbridge last Tuesday.

John Hoaglin was in town Tuesday.

Mrs. Hurst and infant daughter returned from Medicine Hat last week.

### NOTICE

U.F.A. and U.F.W.A. Pres. J.D. James Pres. Mrs. James Will meet on Saturday 22nd. May

General Business— Sec. G. Mondis. See Mrs. McGreger

## Bow Island North-

From our own Correspondent

The Hon. Archie MacLean's New Year's Wish has come true that the made in the farming districts are able deep in mud—we'll admit to the Hon. Archie meant well but it is pretty hard on horseflesh.

Spring has at last arrived, thank goodness after the prolonged winter "even" a wet spring seems like living in heaven, we hope that sufficient moisture has fallen in the last week to keep our crops going till the usual rainy season in June comes to our aid after three very dry seasons a rain of two or three days duration seems hard to realise.

Monday morning of last week saw many of our neighbours on high and ready and hitting the trail for town, to participate in a share of the two cars of hay which were being distributed to the farmers, of the district by the municipality. Some few had risen at 4.30 in order to get in town to good time.

The grass is certainly making wonderful strides in recovery, after three years of drought, it is especially welcome to the stockman, who have so many poor animals running on their pastures, the storm centring on Wednesday has helped wonderfully even if it did put a temporary stop to field work on the farms.

The river is free from ice, and is away up of course it has the colour of yellow ochre, and does not make the best of drinking water, but once this early flood passes off, the water should become clear and then, watch the tanks for anglers.

This spring will see a big majority of cubs being worked in the fields, as the older houses are more or less in poor condition, after Rustling thru the very long winter on Russian thistles, and mighty short pickings.

Those farmers who have yet a big acreage of raw land, will have no kick coming on it being too dry to hold the plow in the ground these days, breaking will be a snap this year if these dandy rains keep coming.

## ROYAL YEAST CAKES

Royal Yeast has been the standard yeast in Canada for over 50 years, and it is a well known fact that bread made with Royal Yeast possesses a greater amount of nourishment than that made with any other.

## Clean Up!

Around about this time of the year it is customary for the housewife to indulge in her annual spring house-cleaning. It has become the usual procedure, too, for the provincial and municipal fire prevention and health authorities to declare "Clean-up" days or weeks. The object is, of course, to focus public attention upon the importance of organized community as well as individual effort being devoted to the task of collecting and destroying the refuse and rubbish which always accumulates around the house and other buildings during the severe winter months.

It is important that this work be attended to for many reasons. First there is the question of health to be considered. The accumulation of dirt, filth and waste, material of various kinds develops from such accumulations, but flies, the greatest of all carriers of disease, breed in the breeding places in filth and rubbish. A general spring clean-up is one of the best health measures that can be taken in any home or community.

The removal of the dust and dirt resulting from the sealing up of houses and offices during the cold winter months is also a protective measure from mites and insects whose destructive activities are too well known to even require mention.

A general spring clean-up is important also from the standpoint of fire protection. Many people who exercise care in regard to the accumulation of filth and rubbish which might have an adverse effect on health, and as the breeding place of many insects of many kinds, neglect to collect and remove other kinds of rubbish which, while not dangerous from these standpoints, are the cause of fires which, all too frequently, result in serious conflagrations with consequent loss of valuable property and even more valuable lives.

"Clean-up" days or weeks have become established institutions in the cities and larger towns, and the municipal authorities co-operate with the individual citizen in city-wide and town-wide house-cleaning. The public health is thereby promoted, a large measure of security from fire is provided, and the whole community made much neater and more attractive, leading inevitably to greater civic pride and to the carrying out of other improvements, such as painting, laying out lawns and gardens, and general home and civic betterment.

Although such organized co-operative effort is not possible in the rural portions of the West, it is none the less important that the same work should be carried out on every farmstead, and the united efforts of all members of the family and the hired help directed to a general farm clean-up, not only around the home but all the outbuilding. The removal of accumulated rubbish will not only improve the appearance of the place, but

It may easily be the direct cause of preventing sickness and loss by fire.

Canada's fire loss annually is simply stupendous; it is the highest per capita of any country in the world. It amounts, on an average, to over \$22,000,000 a year, or at the rate of \$66,000 a day. According to statistics compiled by the National Board of Fire Underwriters, 62 percent of all fires start from preventable causes, while fires of unknown origin are, it is believed, also largely from preventable causes. This heavy fire loss forces insurance companies to charge extremely heavy premiums for fire insurance, thus those innocent people who take all possible precautions are made suffer loss because of the carelessness of others.

Addressing a recent meeting of the Canadian National Safety League, one speaker declared that experience has shown that cleanliness about any institution would do more to prevent fires than any other one thing. This "habit," he declared, was a source of constant danger.

Safety First! An ounce of prevention is worth a pound of cure; it is better to be sure than sorry—all of these old adages and scores of others of like import apply to the question of a general spring clean-up and the removal of rubbish and waste of every description. Better still, of course, is never to allow it to accumulate, but this is not always possible, and it is wholly possible during the winter. There should, however, in their own individual and even selfish interests be a general response by all people to the proclamations issued by the provincial governments of the West to clean up. It is not necessary to wait until that date, but individual and community housecleaning should not be deferred beyond the winter months.

## A SMILE IN EVERY DOSE OF BABY'S OWN TABLETS

Baby's Own Tablets are a regular giver to the little ones — they bring them to their parents' arms happy. When baby is cross and fretful the mother may be sure that something is the matter for it is not baby's nature to be cross unless he is ailing. Give him a dose of Baby's Own Tablets. They are a great deal and needs your constant attention day and night. Give him a dose of Baby's Own Tablets. They are a great deal and needs your constant attention day and night. Give him a dose of Baby's Own Tablets. They are a great deal and needs your constant attention day and night.

Minard's Liniment, Lumberman's Friend. A blub is all right as long as you can fool people with it.

Parasites as Exterminators. Development of internal parasites which will ultimately exterminate the grasshopper, is being carried on at the University of Saskatchewan by Dr. A. E. Cameron, Dominion entomologist. The scientist says that ordinary methods must again be used this year, but hopes that development of the parasite will be sufficient in 1921 to prevent any further grasshopper plague.

Saskatchewan Sells Bonds. The Saskatchewan government has just effected a sale of one million dollars of four and one-half percent Saskatchewan bonds at 102.20, or a net cost to the province at the rate of 5.37 percent, it was announced by the Hon. Charles A. Dunning, provincial treasurer.

Europe has about 100 Universities.

## CURE COWS' CAKED BAGS

## Grain Stocks in Elevators

Western Country Elevators Show A Decrease in All Grains

According to returns received at the Dominion Bureau of Statistics, for the week ending April 23, 1920, the quantity of wheat and oats in store at the different public elevators throughout Canada is less than last week by 760,988 bushels for wheat, and 737,085 bushels for oats. Barley shows a small increase of some 3,665 bushels. Briefly the situation is as follows:

Western country elevators show a decrease in all grains of 2,593,535 bushels, while oats and barley show the largest part, namely 2,425,117 bushels.

In the public terminal elevators an increase is shown of 3,665,280 bushels, wheat and oats make up the largest part, namely 1,334,145 bushels.

An increase is shown in wheat of some 114,857 bushels in the private terminal elevators, Port William and Port Arthur, the same may be said of the interior terminal elevators, which show an increase in wheat of 125,183 bushels, while 114,995 bushels less oats are in store.

In the public elevators in the East, a decrease is noted, caused by heavy shipments from the seaboard ports, while the lake port elevators await the arrival of ships from Port William and Port Arthur; the decrease amounts to, wheat, 444,310 bushels, oats, 36,075 bushels; barley, 41,934 bushels.

The United States Atlantic seaboard ports elevators at Portland and Boston, show a decrease of 20,060 bushels of wheat; while oats, barley and flax remain unchanged.

An increase in the number of cars of wheat, oats and barley inspected for the week ended April 21st, amounted to 110, while flax, rye and screenings indicate a decrease of 34 cars. 64 percent of wheat graded No. 3 Northern and better.

Minard's Liniment, Lumberman's Friend.

A blub is all right as long as you can fool people with it.

## HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva P. Vatemann, Kragersdorf, Ont., writes that after that I must have received from Milburn's Heart and Nerve Pills. About four years ago was taken terribly bad with my heart, nerves and fainting spells, and was down for about months.

I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible fits, that I was that I was not safe to leave me at home at all. At last I received from Milburn's Heart and Nerve Pills. I decided to try them, and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with heart to try them, as I am confident they will find relief.

Milburn's Heart and Nerve Pills are for sale at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Sheep Ranchers For B. C.

The owners of an area, totalling 16,000 acres in the Costa Francois and Stuart Lake districts in B. C., have sold out to a party of 12 private farmers who will run sheep there. A Manitoba rancher has bought 3,200 acres near Stuart Lake and taken an option on 6,900 additional acres. A Victoria rancher recently bought 2,040 acres on the Nechako river in the same section. An influx of Swiss farmers expected to enter the province with a view to settlement, being graduates of the agricultural college at Zurich. They are mainly interested in the dairy business.

Irrigation at Medicine Hat

The Medicine Hat Board of Trade has been actively engaged in the formation of two new irrigation districts, the lands affected lying to the south and east of the town and extending along some 15,000 acres of irrigable land. Surveys have been carried out, plans have been prepared and the projects placed before the provincial government.

## Grasshopper Control

Circular Gives Full Information Regarding Preparation and Application of Poison

"Locust control in the prairie provinces by Norman Colwell is the title of a publication just issued by the entomological branch of the department of agriculture at Ottawa. This is a timely circular in view of the possibility of a recurrence of the grasshopper invasion of last year in this province.

The circular gives full information regarding preparation and application of poison baits, and the method which is said to be the best in handling the eradication of the hopper. It further states that the locusts which last year did considerable damage are the native kinds known as pelidid locusts. It can be secured, free upon application to the publications branch of the department of agriculture, Ottawa.

## LET "DANDERINE" BEAUTIFY HAIR

Girls! Have a mass of long, thick, gleamy hair

Let "Danderine" save your hair and doubt its beauty. You can have long, thick, strong, lustrous hair. Don't let it stay hidden, thin, scraggly and falling out.

Bring back its color, vigor and vitality. Use a 35-cent bottle of delightful "Danderine" at any drug or toilet counter to freshen your scalp; check dandruff and falling hair. Your hair needs this stimulating tonic, then its growth and its abundance will return—thrustling!

## Maintain Soil Productivity

A Moral Duty to Perform As Regards Our Farms

"Maintaining the soil's productivity is not only a duty that we owe to ourselves, but a duty to posterity. We have no right to take from posterity the means of subsistence.

The farmer of today who does his duty by his farm must pass it to his successor in a more fertile condition than that in which he received it. The man who does not do this robs posterity, and it is just as much a crime to rob future generations as it is to rob those who are living on the earth today.

Therefore in agriculture we have a moral duty to perform which we must not forget; and that is the duty which we owe to those who are to come after us. Let us then, as farmers, see to it that the fields, which we till, be better producers than when we received them—Farmer and Breeder.

Ask for Minard's and take no other.

## Conscience Money

The Chancellor of the Exchequer of the United Kingdom publicly acknowledges the receipt of fifty pounds conscience money from S.O.S. It is a big amount in the circumstances, but doubtless is as a grain of sand on the beach to what is owed the government by individuals whose consciences do not worry them, at least in the matter of conspicuous consumption. S.O.S. is a lonely fellow. Or is it a she?—Montreal Gazette.

## Fine Airplane Record

Squads of the Handley-Page machines carried out over 300 bombing raids during the war without a single machine being lost, due to engine failure or defects in the aeroplane. It is also a matter of military credit that many of the machines on these bombing raids would be ridden with shrapnel and with the fabric on the wings dipping in the wind, would be able to return to their base with their crews and land safely. This, of course, was not made possible by the great stability of design already referred to.

## Storage for Coal

Sheds with a storage capacity of 10,000 tons, to be extended to handle 20,000 tons, have been secured in Winnipeg to store coal shipped from Drumheller, Alta. This is the first time coal from the Drumheller mines has been stored in that city.

W. N. U. 1315

## RHEUMATISM

This is just the reason why you should get this grinding pain and stiffness of joints out of you. Fight it with

Templeton's Rheumatic Capsules being certain relief, and permanent results. They are recommended by reliable physicians everywhere. Write to Templeton, 112 King St. W., Toronto. Mailed anywhere on receipt of price.

## ASTHMA

Templeton's RAZ-MAH Capsules guaranteed to relieve ASTHMA. Don't make another day. Write Templeton, 112 King St. W., Toronto, for free sample. Reliable druggists sell them at 65¢ a box.

## Egg-Laying Contest

Pen of Winnipeg Birds is Now in the Lead

With the Manitoba egg laying contest at the Brandon experimental farm half over, a pen of single combs Anconas, owned by W. H. Howe of Winnipeg, has jumped into the lead with a total of 882 eggs for ten pullets in 26 weeks.

The two pens of white Wyandottes which held the lead through the winter months are in second and third place; G. P. Thompson, of Minneapolis, is owner of those in second place, while T. Lund, of Stonewall, has the third place so far with his pen.

The record for a single bird is held by a white Wyandotte, owned by Mr. Thompson. This hen has laid 120 eggs since the contest began, while the best weekly record for a pen is 89 eggs, by Mr. Thompson's Rhode Island Reds.

Settlers in B. C.

Hundreds of settlers are expected to enter the Nechako Valley in the spring, and it is reported that many of the incoming thousands of acres in the section have pooled their interests. They expect to have many acres under crop next season.

## Makes Harness and Axles LAST LONGER

Imperial Eureka Harness Oil remains in the leather (unlike vegetable oil) and prevents cracking or breaking of stitches. Keeps straps and tags pliable and strong—preserves the harness against the action of sweat, moisture and dust—wards off insects. Imparts a rich, black lasting finish.

## Known Everywhere

If you don't see Imperial Eureka Axle Grease and Imperial Eureka Harness Oil ask your neighbour about them. They are the highest quality made. You cannot get better results in harness and leather and teamsters in every community.

## Binding Power of The British Throne

It is Because of the Republic Spirit Stands Firmly

Western Australia Mail.—The British Empire, or, as it is of late more correctly being styled, the British Commonwealth of Nations, could not well exist without the nexus of a common throne. This crowned republic, if it is to continue as a political entity cannot conceivably scrap the institution which pervades British political institutions that the British monarchy stands so firmly as it does. A paradox this no doubt, but a paradox which exactly expresses the truth.

As a frequently used as a river name in Continental Europe.

## Keep Your Automobile Like New

## KLEANALL AUTO Body Top Dressing

Gives your automobile a lustrous and brilliant polish that does not catch dust. Removes all dirt and grease. Easily applied. Preserves the finish.

## Von Beulow On The War

Tells What He Knows About Who Started The Trouble

Berlin.—Prince Bernhard von Buelow, former German chancellor, has in a rather laudatory manner catalogued the list of those making reservations concerning the outbreak of war by writing a letter to the *Fremdenblatt* of Hamburg, regarding the statement made by Dr. Theobald von Bethmann-Hollweg, chancellor in 1914, that the declaration of war was inevitable. Prince von Buelow sketches his long years as chancellor, telling how he was unable to avoid war and admits that once war was declared, Dr. Bethmann-Hollweg, who, he says, however, "lacked political acumen."

"During the grave weeks before the war," writes Prince von Buelow, "serious diplomatic and political mistakes were made by Germany's political leaders, who were unjustly ascribed to the people's responsibility."

## Was Ribbon By The Mile

London.—Two hundred and fifty miles of British war medal ribbon are to be issued to the men and women entitled to wear decorations through recent acts of the King.

## Minard's Liniment Cures Burns, Etc.

Bolshevik Troops Murder Persians London.—Deaths have reached here of the murder by Bolsheviks of thousands of the Persians, consider agent at Amarsiv, Armenia, together with 310 Persian subjects, of whom 270 were Mohammedans and forty Christians.

When the volunteer army evacuated Amarsiv, July 27, according to reports, the Bolsheviks called Dushahulu out, shot him down and mutilated his body with swords and bayonets. The Bolsheviks then herded together all the Persians who had taken shelter under the protection of the Persian flag, and shot them en masse with machine-guns and buried them, partly in the consular graveyard and partly in a common pit.

## Snow in New York State

Hornell, N.Y.—Although the sun was shining brightly, Hornell was treated to the old story of a snow storm in August of other day. Light snow fell for five minutes, melting as rapidly as it struck the ground. It is the earliest snowfall ever recorded in this section.

## Monument In A School Yard

A Figure of Young Infantryman Done in Pine Granite

Looking out over grain fields and meadow in one of the best agricultural districts of Huron County, Ontario, is a figure of a young infantryman, done in fine granite. The figure surmounts a base, also of stone, and altogether it is a highly creditable work. Inscribed on the base of the monument are the names of the young farmers of the district, who gave their lives in the nation's defense in the Great War, and also those who enlisted, and those who were wounded. What makes the monument more the more is the fact that it stands in the center of a school yard. The three young men whose lives were sacrificed in the war were young scholars in the little white brick schoolhouse. They were the sons of farmers in the neighborhood. They played and studied and worked by turns. The figures, made of stone, are still there. The homes from which they went, and in which there is a vacant chair, are representative homes.—London Free Press.

## Minard's Liniment Relieves Neuralgia.

Ukrains to Protect Jews

London.—The Ukrainian authorities declare that the Ukrainian national government has taken measures to prevent all attempts at persecution of Jews in territory occupied by it, according to advices received here.

## YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store "Give me a quarter of an ounce of Minard's Corn Cure," and you will be sufficient to remove every hard or soft corn from your feet.

A few drops of this new ether corn cure applied directly to the sore, itching corn, should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers.

This new way for the cure of corns was introduced by a Cincinnati druggist, who, by the use of this simple, it dries in a moment, and simply shrivels up the corn without any pain or even irritating the surrounding tissue of skin.

It is a simple case of infection or lockjaw from whitening at its corn, but clip this out and make him try it.

Money is called the circulating medium because it is difficult to circulate without it.

Worms, by the irritation that they cause in the stomach and intestines, produce indigestion, the result of which they should derive from food, and thus they are the cause of many ailments.

Minard's Worm Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full treatment of the worm is assured and development in every way encouraged.

## Provinces Get Share

Money Voted for Highway Construction to Be Divided

Ottawa.—A conference on the question of highway development was held here in the office of J. A. Campbell, head of the highway branch of the department of railways.

The problem under discussion related to the spending of the \$20,000,000 voted for highway construction by the Dominion parliament last session. Under the provisions of the legislation adopted \$80,000 is to be paid to each of the provinces in a lump sum, and the subsequent assistance will be on the basis of population.

Representatives of provincial highway departments present at the conference included A. McGillivray, of Manitoba; Mr. McLean, of the Ontario Highway Department; and Mr. Carpenter, of the Saskatchewan Highway Department.

## Humor of the Country

As the last train was about to go out, an old farmer rushed into an already overcrowded compartment. It happened that an attendant—a dandified young man—was one of his customers. By the way of pleasantly, the dude inquired what he had got in a small box under his arm.

"Oh," said the farmer, "a box of chalk."

"I see," the young man replied, with an air of wisdom on his countenance, and, looking round at his fellow passengers—"Chalk for the milk, eh?"

"Not exactly," drawled the old chap, slowly; "but I've done so much chalking up for milk at your house that I've had to buy another box."

## France's Forests To Be Restored Quickly

Wherever There Was To Be Forest The War There It Was A New Forest

Now France is confronted with the problem of restoration. And she is going about the work in the characteristic systematic French manner. When it was a question of a war to be won the French gave their lives and fortunes without question, and the war has been won they are displaying the same spirit in the work of repairing war's ravages. Wherever there was a forest before the war there is to be a new forest. The French may be merciful and effervescent, but when it comes to a matter of the motherland's welfare there is no more practical people on the surface of the earth. From French frugality and from French foresight America may learn a lesson. Not only to repair the damages of war, but also to compensate for the ravages of America's lumber industry, the future should have an eye to the future. Where forests have disappeared new forests should be planted and raised without the aid of the government. Conservation is coming to be an accepted goal, but at present restoration may be even more important than conservation.—Cleveland Plain-Dealer.

Newsp: Did you run short of corn, Helen? The pie crust doesn't half cover the pie.

Ma: Newswid: I know, dear; your mother told me that you like your pie very short.—Louisville Courier-Journal.

The increased consumption of tobacco due to the smoking of women has forced the largest tobacco concern in Great Britain to increase its capital for the purpose of expanding its business.

There is no poisonous ingredient in Minard's Corn Cure, and it can be used without danger to the injured.

## Alberta Mines About Normal

Thirty-one of the Leading Mines Are in Operation

Ottawa.—The number of mines in the District of Columbia has increased to the vicinity of Fernie, B.C., and Edmonton, Alta., which have resumed operations after increasing the surrounding area.

The latest report received by the Minister of Labor is to the effect that 31 of the leading mines, representing 60 per cent. of the total output, are in operation.

At the same time officials of the United Mines Workers' Association are expressing considerable opposition from advocates of the One Big Union idea. According to reports, however, the opposition seems to be decreasing.

Hon. G. D. Robertson has just returned from a personal investigation of the situation.

## Genuine Asprin Has "Bayer Cross"

Tablets Without "Bayer Tablets" Not Asprin At All

Get Genuine "Bayer Tablets" Not Asprin in a "Bayer Package," Plainly Labeled With the Safety "Bayer Cross."

There is not a penny of German money invested in the "Bayer Cross" Asprin, nor will a German citizen profit by its sale.

The original, world-famous Asprin, marked with the "Bayer Cross," is now made in Canada and can be had at your drugstore in the hands of 12 tablets and larger "Bayer" packages.

Genuine Asprin has been proved safe by millions for Pain, Headache, Toothache, Rheumatism, Lumbago, Colds, Grippe, Neuritis, Asprin is the trade mark registered in Canada, of Bayer Manufacturing Monarchist/adeater of Salicylic Acid.

Japanese Want to Rule Manchuria Tokyo.—It is reported that at a recent meeting the Imperial cabinet, to support the opinion advanced by the military element in the government decided to insist upon the exclusion of Manchuria and Mongolia from the consortium by which Great Britain, France, the United States and Japan will assume a dominant position in the finances of China. It is said that negotiations will be resumed with the powers on that basis.

Plow Works at Regina Incorporated Ottawa.—The Canadian Oliver Chilled Plow Works, Ltd., of Regina, Sask., has been incorporated with a capital of \$200,000.

## VERY SIMPLE CURE FOR BAD COLDS

Let your cold gain headway and you can't keep it from running into Catarrh.

Drive colds and catarrh right out of your system while you are clean. Easily done by inhaling Catarrh-ozone. Instantly reaches the true source of the trouble, gets right where the living germs of catarrh are waging.

## Catarrh-ozone

A Convenient Inhalant Treatment In The Proper Remedy To Cure Coughs

Having and splitting case, because the discharge is cured. The nostrils are cleared, drainage is relieved, breath is purified. Every trace of catarrh, bronchial and throat inflammation is removed. Catarrh-ozone is a safe remedy for all colds, coughs, and catarrh, as prescribed by doctors. It is used in hospitals, that is enforced by the Catarrh-ozone last. For winter use it's nothing half so good.

Two months' treatment, large size, price \$1, and guaranteed. Small size, price 50c, at dealers everywhere.

## Airman Decorated

Major G. H. Scott, Commander of R-34, Given Commendation of O.B.E.

London.—The decorations awarded in connection with the trans-Atlantic flight of the airplane R-34 have been gazetted. Major G. H. Scott, commander of the dirigible, is given a commendation in the military division of the Order of the British Empire. Brigadier-General E. M. Maitland, who represented the British Air Force, is given the same honor. Major H. C. Hook, the navigating officer, is given the same honor. Major G. H. Scott, the meteorologist, and Lieut. John D. Harris, engineer officer of the R-34, are awarded the Air Force Cross, and six sergeants who were aboard the airplane are given Air Force medals.

## Canadian Mounted Station Closed

Portland, Maine.—The transportation of wounded Canadian soldiers from Liverpool through this port to the various military districts in Canada has been completed, according to an announcement by Major Howard Jeffs, the medical officer in charge of the Canadian hospital clearing depot. Major Jeffs said the transport of the wounded has been completed, and the hospital service and that the Air Force would make one trip to Halifax with 200 wounded men.

Did you write vote? "Yes."

"Get along all right?"

"Yes; but it took her a long while to get her ballot folded like a paper napkin."—Detroit Free Press.

Everything he wants will come to the man who waits until he doesn't want anything.

St. Idore, P. Q., Aug. 18, 1894. Minard's Liniment Co., Limited.

I have frequently used MINARD'S LINIMENT, and also your "Bayer Tablets" and "Bayer Cross" Asprin, and I consider it the best all-around Liniment.

Yours truly,  
DR. JOS. AUG. SIROIS.

## Belgians Take Malmady

Paris.—Belgian authorities have taken official possession of the district of Malmady, which was ceded to Belgium by Germany under article 16 of the peace treaty.

Minard's Liniment for sale every where.

Telephone Construction in Sask. School and telephone construction in Saskatchewan continue at a rapid pace, according to the announced authorizations by the federal government board. During the week ending July 26, the board issued permits for telephone construction, including new companies and extension to existing lines, to the amount of \$357,165. This includes 27 new companies. Bonds are also being sold for night new companies to the amount of \$92,550. During the same period the board authorized the issue of school debentures for seven districts to the amount of \$30,000.

## Your Eyes

Wholesome, Cleansing, Refreshing and Healing. For all eye troubles, including Catarrh, Conjunctivitis, Styes, Sores, Granulations, Etc., and for all burning of the eyes or itching. A "Bayer Cross" Asprin, and I consider it the best all-around Liniment.

W. N. U. 1279

## Alleged Betrayer Of Edith Cavell

Georges Gaston Quin Will Appear Before Sixth Court-Martial of Paris

Paris.—Georges Gaston Quin, charged with having intercourse with the enemy, and alleged betrayer of Edith Cavell, will appear before the Sixth Court-Martial of Paris. The prosecution claims that it will prove that after obtaining funds and help from the English nurse, Quin went to Holland and returned to Brussels as a German agent and betrayed her to the Germans.

The defence will ask for an indefinite postponement until such time "as the Kaiser and other parties primarily responsible for the death of Miss Cavell are brought before an international tribunal."

## Next Russian Stand

Vienna.—Belgian forces retreating on the east Russian front have planned to make a stand on the Iabyn river, which crosses the trans-Siberian railroad about 175 miles west of Omsk. Reports here have stated that the Siberian retreating have stood on the line of Tobolsk, about 50 miles further west.

Did you ever notice that the man who whistles and the man who wins are not the same?

## SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather, give the little ones the "Bayer Cross" Asprin. In a few hours he may be beyond aid. These little ones are the victims of summer complaints if given occasionally to the well child, and will promptly relieve him if they are given to the sick child. Baby's Own Tablets should be given to the little ones in a few hours he may be beyond aid. These little ones are the victims of summer complaints if given occasionally to the well child, and will promptly relieve him if they are given to the sick child. Baby's Own Tablets should be given to the little ones in a few hours he may be beyond aid. All over the world.

## Trucks in Western Provinces

## Value of the Truck in Hauling Grain To Market

In the western provinces of Canada the farmers are all future truckers. Many of these farmers are equipped at from ten to sixty miles from railroads. The estimated cost of hauling grain is .03 per bushel per mile.

A good team of horses will haul 75 bushels at a speed of 2 1/2 miles per hour.

A two-ton truck will haul 80 bushels on a 20-mile trip in two hours and return in two hours, making two trips per day on a good road.

At a recent meeting of the Grain Growers in Saskatchewan, when this fact was pointed out to them, many said they would be subscribed to by the farmers of the province, and branches will immediately be opened at Edmonton and in Calgary.

## New Alberta Bank

Application is being made for the incorporation of the "Bank of Alberta" with headquarters at Edmonton. A capital of \$2,000,000 is proposed, and the bank is to be subscribed to by the farmers of the province, and branches will immediately be opened at Edmonton and in Calgary.

## Seed Growing in B. C.

The United Seed Growers at Penticton, B.C., expect to seed 300 acres for vegetable seeds this year and 100 acres for sugar beet seed production in 1921. This district, and in fact, the whole province, has had a marvellous striding in growing of fine seed.

In Thibet the people salute their guests by taking off their hats and thrusting out their tongues three times.

## Accept "California Syrup of Figs"

only-look for the name California on the wrapper, then you are sure you child is having the best and most healthful of all medicines. Children love its delicious fruit taste. Full directions for child's dose on each bottle. Give it without fear. Remember! You must get "California."

## Doughkhor Land For Sale

Twenty-Six Parcels Were Sold And Eleven Farm Units Remain To Be Disposed Of

Surrendered Doughkhor lands aggregating about 10,000 acres in the vicinity of Kamook, Sask., were disposed of by ballot to soldier settlers under the federal soldier settlement board regulations on April 20. 56 parcels were sold and 11 farm units remain to be disposed of.

## Survey of Physicians

In a survey prepared by the Faculty of Medicine of the University of Toronto, in connection with the prospective gift of \$50,000 from the Rockefeller Foundation for Medical Research in Canada, it is shown that Toronto has one doctor to 567 of population; London, Ont., one doctor to 711; Hamilton, Ont., one doctor to 700; and Ottawa, Ont., one doctor to 840. Ontario leads in the roll call of provinces with one doctor to 766 of population. British Columbia comes next with one doctor to 903; Nova Scotia is third with one doctor to 1,006; and Manitoba, fourth, with one doctor to 1,146.

## Sageer Wheeler is Honored

Queen's University has conferred the honorary degree of Doctor of Divinity on Rev. C. S. Young, of Saskatoon, and the degree of Doctor of Laws on Sageer Wheeler, Rosthern, Sask.

## Atrocity Stories are Revived

To Create Prejudice Against Lloyd George's Policy of Soviet Negotiation

London.—The resumption of hostilities between the Poles and Bolsheviks coincides with the opening of the Northcliffe newspaper campaign, plainly intended to create prejudice against Lloyd George's policy of negotiation with soviet Russia. The Times devotes a leading article to a revival of the atrocity stories and comments on the case of the Reverend North, a British Chaplain in Moscow throughout the revolution, whose arrest is reported on a charge of being associated with the British secret service. The Times states that the true reason for his detention is that Lenin fears the effect on the outside world of North's evidence respecting the real conditions existing under sovietism.

Northcliffe's organ accepts as trustworthy the assertion that "Lord Lansbury, the British Socialist, was carefully shepherded during his recent visit to Moscow. The city, it is declared, was specially lighted. British prisoners were provided with better food. All workmen had strict orders to behave in circumstances of decorum. After Lansbury's departure, Moscow repeated into its usual chaos. The Times professes that the British reporter, who left for Russia, this week will be similarly hoodwinked and shown only what the Bolsheviks think fit. Reverend North, it is stated, is the only living Englishman able to give a true account of the Moscow atrocities, and hence his arrest.

First a school station in Kansas was talking. Next Hawaii was picked up, sending to San Francisco. Then Berlin was heard calling for Russia. Again a station on the coast of Venezuela sent a message to Madrid, then broadcasted with London.

Through and past all this, Dr. Miller tuned his receiver until all sounds died away. He was in the wireless. Back and forth across America flashed, his range lengthening, running the gamut from 10,000 to 300,000 and more. But not a sound came over the waves after the earth zone was past.

## "SYRUP OF FIGS"

## CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

The scientists kept this up until daylight, and Dr. Miller heard the following bulletin:

"The early part of the evening we were troubled with heavy static, so that it was impossible to hear anything except station in South America, Europe and the United States. During the latter hours of the night, when the wireless was stretched to its fullest extent to hear inter-planetary communication, we heard nothing that could be construed as a message from Mars."

## Bulletin on Bee-Keeping

## Published by the Manitoba Department of Agriculture

At present a great many people in Western Canada are enquiring as to where they can purchase bees, declaring their desire to take up the beekeeping industry. To assist all this, and also all others who may be interested, the Manitoba Department of Agriculture has published a new 24-page illustrated bulletin entitled "Beekeeping in Manitoba." This bulletin is written by Dr. M. J. Muckle, A.S., a lecturer in beekeeping, who has had many years experience in beekeeping in Manitoba, and has had a wide opportunity in connection with his departmental activities, of observing the beekeeping possibilities of all parts of the province. A free copy of the bulletin may be had on application to the Publications Branch, Manitoba Department of Agriculture, Winnipeg.

## High Prices Are Result of the War

## Declaration on Economic Conditions That Present Situation Is Not Abnormal

The disorganization of the whole economic position of Europe due to the war is reflected in the rise of prices which is at present the source of universal discontent among all peoples, belligerent and neutral alike, says a declaration on the economic conditions of the world, approved by the supreme council on March 8, and tabled in the house of commons.

"High prices are the inevitable result of war," the declaration states, "and in comparison with most wars, the present situation is far from abnormal. In the Napoleonic wars, the prices in England rose 73 percent and took eight years to become normal again."

In the American civil war prices rose 100 percent, and took twelve years to become normal."

## Keep Minard's Liniment in the House

## New Gold Discovery

Gold has been discovered on Snake Creek, eight miles north of Okotoks, and 20 miles south of Calgary. Prospecting has been looking in this locality, and many miles of claims have been staked. A sample analysed by the Calgary city chemist assayed \$18.50 to the cubic yard of sand.

## Wonders of Wireless

## But Mars Declines to Talk to This Planet

The message from Mars, for which Dr. Frederick H. Miller, noted scientist in wireless, searched interplanetary space from his giant receiving plant near Omaha, Nebraska, did not materialize. If there were such messages passing through the ether for the fifty millions of miles which separates the earth and Mars it did come, but sufficiently close to the earth to be picked up by the great receiving station which Dr. Miller has established on the banks of the Platte River.

For nine hours Dr. Miller and his assistant, L. H. Gamor, searched for the signals which Mars is thought to be sending caravans. The first half of the night the wireless instruments were badly interfered with by static. Through the delicate receiving instruments came the crackling of lightning and other electric sounds to such an extent that no signals anywhere could be received.

The receiver was gradually tuned to its full length of wave. Starting at a short wave, its capacity was increased. As its range was extended the world's wireless business was picked up.

First a school station in Kansas was talking. Next Hawaii was picked up, sending to San Francisco. Then Berlin was heard calling for Russia.

Through and past all this, Dr. Miller tuned his receiver until all sounds died away. He was in the wireless. Back and forth across America flashed, his range lengthening, running the gamut from 10,000 to 300,000 and more. But not a sound came over the waves after the earth zone was past.

## Allocation of German War Vessels

## Six Warships For Great Britain; Also 124 Submarines

Six German warships, the Baden, Helldorf, Posen, Rheinland, Westphalen and Nurnberg, and 124 submarines have been allocated to Great Britain. The United States will get the Ostfriesland and Frankfurt. According to the agreement, France has been awarded the Thuringen and Emden and 28 submarines, Japan will get the Oldenburg, Nishinomiya and Augsburg, and Italy will receive seven submarines. The ships allotted at Scapa Flow, says the announcement, are to go to Great Britain. Allocation of the remaining 18 light cruisers, 50 destroyers and 50 torpedo boats, depends on the selections made by France and Italy. The ships to be surrendered under the Austrian treaty.

## DELICATE GIRLS

## HADE STRONG

## Rich, Red Blood Needed to Keep Up Their Vitality

If growing girls are to become well developed, healthy women, their blood supply must be carefully watched. I should be constantly in mind that bloodless girls are really plants, not only eat and drink, but also breathe, and their blood must be kept up to the mark. To save the weak, thin-blooded sufferer the must have rich, red blood and nothing else. This is the case of this kind of work. The blood must be kept up to the mark. To save the weak, thin-blooded sufferer the must have rich, red blood and nothing else. This is the case of this kind of work.

## Cold-Proof House

## House Has Been Built to Keep the Cold Out and the Heat In

A house has been built in Saskatchewan on the refrigerator plant, save that where a refrigerator keeps a cold in, the house has been built to keep the cold out and the heat in. It has been an successful during the winter that it may be said to merit the term "cold-proof." The owner is Mr. H. G. Gawn, a refrigeration engineer.

### St. Michael's Church

Mass will be celebrated on Sunday  
the 16th. May at 11 a.m.

## Crop Outlook is Good.

Reports coming in from all parts  
of the Bow Island District, indicate  
that the Crop outlook was never  
better; the farmers are working with  
heart and soul to get every acre into  
what they possibly can; they  
will reap a rich reward, for what is  
expected to be well over \$25.00 a  
bushel this fall.

Those of our farmers who were  
fortunate to secure a few bushels of  
spring rye, should not worry over  
the scarcity of feed this year. Bruce  
Marden has a small patch seeded  
broadcast, and these rains will cer-  
tainly bring it along. Bruce is putting  
in 10 acres of this grain simply for  
feed, as soon as he can get an to the  
land at present, a horse would bog  
down in a ploughed field, something  
new for this district.

MAIN STREET, BOW ISLAND

## Burdett News

From Our Correspondent

If you had a Farm Loan and need  
it quick, with good interest con-  
ditions see George Lomas of Burdett  
who has had years of experience.  
No Delay

The Flood of Trade at this point is  
very much alive after the lamented  
death of Dr. Peterson a determined  
effort was made to get a doctor to  
locate at this point. We are glad to re-  
port that after interviewing several  
applicants a gentleman has arranged  
at once to take up his residence and  
commence practice, in fact by has  
already done so.

Burdett will in the course of the  
next week or so find itself provided  
with a first class up-to-date drug store  
the name of the firm opening will be  
a surprise to many we think.

Seeding is proceeding very fast in  
the district, farmers are most  
optimistic and say that never in their  
experience have they had such a fine  
start for a bumper crop.

Andrew Volk's little girl was very  
ill this week. The doctor not having  
arrived in Burdett it was necessary  
to obtain the services of one from  
Medicine Hat. We are glad to say  
she is improving nicely and will soon  
be bound again.

Labor is hard to obtain, not only is  
there a shortage of men, but the  
wages required are very high, in fact  
too high for the average man to pay.

The Rev. Mr. Richards from Medicine  
Hat at the Methodist Church last  
Thursday interested a small but  
appreciative audience with a lecture  
describing a tour through Canada  
illustrated with good C.P.R. lantern  
slides, if those responsible for the  
arrangements had advertised properly  
then the crowd attending would have  
been much larger. It is hoped to  
obtain a return visit when a crowded  
hall will be the result.

Emerson Brown suffered a severe  
loss this week, seven head of good  
milk cows decided to move to a new  
pasture and for four days no word  
of them could be obtained; we are  
glad to say they have since returned  
apparently none the worse for their  
absence.

Preparations for G.W.V.A. Dance  
on May 28th. are well in hand. The  
popular Waverley Orchestra has been  
engaged as first class music is assured.  
Be sure to book date.

Tickets on sale from all members.

## The Weather For May
